FICTIONAL MANUFACTURING PRODUCT - DEMO ONLY
HX-400 | ThermaPlate heat exchanger
Category: Heat exchanger
Product overview

Transfers heat between two separated water circuits using gasketed plates.

Illustrative duty 150 kW; 316 stainless steel plates; EPDM gaskets; 10 bar design pressure.

FICTIONAL MANUFACTURING PRODUCT - DEMO ONLY
HX-400 | ThermaPlate heat exchanger
Category: Heat exchanger
Applications and limitations

Separates a process cooling loop from a utility water loop. Actual sizing requires thermal engineering.

This is invented demo data, not a real manufacturer datasheet.

Do not use these specifications for selection, installation, or operation.
