FICTIONAL MANUFACTURING PRODUCT - DEMO ONLY
SENSOR-500 | VibeWatch vibration sensor
Category: Sensor
Product overview

Monitors machine bearing vibration for condition monitoring and predictive maintenance.

Illustrative measurement range 0-25 mm/s RMS; 10-1000 Hz band; IO-Link interface; IP67 enclosure.

FICTIONAL MANUFACTURING PRODUCT - DEMO ONLY
SENSOR-500 | VibeWatch vibration sensor
Category: Sensor
Applications and limitations

Bearing-condition trend monitoring on pumps and motors. Not a protective shutdown instrument.

This is invented demo data, not a real manufacturer datasheet.

Do not use these specifications for selection, installation, or operation.
